Aspiring Tech Professional with strong interests in Front-End Development, Data Analysis, and IT Support. Experienced in building responsive web applications using HTML, CSS (Bootstrap), JavaScript, and React. Currently exploring the world of data by learning SQL, Excel, Power BI Desktop, and Python. Passionate about solving problems using technology and continuously developing skills through personal projects and certifications. Seeking entry-level opportunities in web development, data analysis, IT support, or other tech-related roles to contribute, learn, and grow professionally in the tech industry.

Work Experiences

PT. Satria Raksa Buminusa – South Jakarta, Jakarta

Oct 2023 - Dec 2023

Data Analyst (Internship)

A privately owned national company specializing in security services

- Analyzed attendance data of 200+ security personnel using Microsoft Excel, identifying weekly attendance rates around 80%, which prompted management to issue reminders and formal warnings to improve compliance with app-based attendance procedures.
- Managed and updated *Smart Patrol* app accounts for 200+ security personnel, ensuring accurate and reliable personnel records.
- Developed a dashboard to track weekly patrol activity for 200+ security personnel using Excel data extracted from the *Smart Patrol* admin portal, enabling individual performance monitoring.
- Built a *KTA Summary Dashboard* to monitor 800+ security personnel ID cards across 18 projects, enabling real-time tracking of card status including active, expired, under extension, and personnel without KTA.

Education Level

Universitas Gunadarma – Depok, West Java

Oct 2015 - Aug 2021

Bachelor of Information Systems, 3.32/4.00

Skills

- **Web Development:**
 - **Front-end Technologies:** HTML, CSS (*Bootstrap, Tailwind CSS*), JavaScript (*ES6+, DOM, Fetch API*), React (*Basic – Components, Props, State*).
